EMCC's Customized Training Solutions

Customized Training Solutions

Estrella Mountain Community College focuses its efforts on providing cutting edge training for the educational needs of employers seeking to qualify and ready their workforce for further career opportunities, enhanced performance and retention. Our range of fundamental and advanced skill courses get your employees ready for industry-specific training by enriching communication, language and listening skills, organization, personal responsibility, and leadership and management skills that are the groundwork for becoming experts in any industry—especially yours.

We bring the training directly to your business. Estrella Mountain's customized training solutions are tailored to fit your needs in the most convenient way possible by offering vital, results-driven training at your location. With no travel time and no long hours spent away from the job, the return on investment is immediate. Your prepared workforce can get back to work—fast!

After an on site consultation, specific needs are researched and a cost effective training program is developed to benefit your participants.
